Practical green travel solutions

Project Centre is at the cutting edge of introducing practical, sustainable transport solutions in the UK. We helped introduce a quarter of the UK's car club bays and were commissioned by Serco to help introduce the Barclays cycle hire scheme in London.

- We offer a complete package to introduce car club schemes
- Provided detailed designs for all of the new cycle hire stations in London
- Help introduce on-street charging points for electric cars
- Produce green travel plans
- Cycle permeability and parking schemes
- Work with Carplus to provide best practice guides for car clubs

Our services

- Car clubs
- Cycle hire and cycle parking
- Low carbon initiatives
- Green travel
- Electric vehicles

A selection of our clients

- London Borough of Islington
- London Borough of Lambeth
- London Borough of Southwark
- LB Waltham Forest
- Serco
- Transport for London

◀ Car Clubs

- Project Centre has helped introduce over 500 car club parking spaces across London
- Design and run public and stakeholder consultations on car clubs for local authorities
- Develop borough-wide network of car club bays
- Identify suitable locations for car club bays
- Draft and make all necessary traffic orders
- Supervise the introduction of car club bays
- Winner of the London Transport Award 2008 and Automotive Industry Green Apple Award 2010 with Islington car clubs

Barclays Cycle Hire Scheme ▶

- Provided dedicated design team of 18 engineers and CAD designers
- Produced detailed designs for over 650 docking stations
- Extensive liaison with TfL, London boroughs, City of London, the City of Westminster and The Royal Parks.
- Developed a range of bespoke foundation solutions
- Designed associated highways works including pavement build outs and protective islands
- Produced traffic management plans for over 650 sites
- Provided site supervision during construction

◀ Electric Charging Points

- Advice to local authorities and private car park operators on the introduction of electric charging points
- Identify suitable locations for electric charging points
- Consultation of local residents and businesses
- Detailed designs for electric charging points
- Drafting of traffic orders for pilot electric charging schemes
- Assistance with implementation

The Low Car Neighbourhood ▶

- Concept aimed at reducing car parking pressure and providing environmental benefits through introduction of car club cars
- First project of its kind in the UK
- Pilot scheme given TfL funding for development of concept
